

ARABESQUE MINISSIMO DIAMOND

TECHNICAL DETAILS:

Way of operation: Two way full range loudspeaker

CABINET:

Cabinet machined from one solid piece of metal composite
Smooth shape minimizes resonance and allows for wide dispersion
for easiest in room placement
Stands with internal dampening included
Low noise bottom port for low distortion bass extension
(Can be closed to match the Subissimo subwoofer)
Laquered in four high-gloss multi layered durable colors

DRIVERS:

Special long through Diamond dome HF loudspeaker with pure silver voice, silver wires and Neodymium rare earth magnets
Special long through bass loudspeaker with Neodymium rare earth magnet
Stereo Matched pairs within 0.3dB

CROSS-OVER FILTER:

First Order filter
Parts: Large Silver-oil capacitor and low loss
Ultra low distortion air inductor
Pure graphite resistors

INTERNAL WIRING:

All Crystal cable large gauge solid mono-crystal silver wire

TERMINALS BI-WIRE:

Double set of WBT NextGen silver

SPECIFICATION:

Frequency range: 47Hz-50kHz(-3dB) near wall position
Crossover frequency: 1800Hz
Crossover: First order filter
Power handling: Max. 150W RMS
Total harmonic distortion: <0.18 % from 220Hz-22kHz
Max SPL: 106dB
Efficiency: 83,5dB @ 2,83V
Impedance: 8 ohm nominal (7 ohms minimum)
