

ARABESQUE MINISSIMO

TECHNICAL DETAILS:

Way of operation: Two way full range loudspeaker

CABINET:

Cabinet machined from one solid piece of metal composite
Smooth shape minimizes resonance and allows for wide dispersion
for easiest in room placement
Stands with internal dampening included
Low noise bottom port for low distortion bass extension
Laquered in three high-gloss multi layered durable colors

DRIVERS:

Special Berilium dome HF loudspeaker with Neodymium rare earth magnet
Special long through bass loudspeaker with Neodymium rare earth magnet
Stereo Matched pairs within 0.5dB

CROSS-OVER FILTER:

Second Order Natural Sience filter (low Q)
Parts: Large Silver-oil capacitors
Low loss, low distortion air inductors
High purity resistors

INTERNAL WIRING:

All Crystal cable solid silver wire

TERMINALS:

Single set of WBT NextGen silver

SPECIFICATION:

Freq. Response 48Hz -38kHz (+/-3dB)
Bass power 150W
THD 200Hz-20kHz <0.3%
Efficiency 83dB@2.83v in 8Ohms
Impedance nom 8 Ohm, min 7 Ohm
