

The Audio Beat

CES 2017 • Hot Product

Crystal Cable's Ultimate Dream is composed of seven conductors, six of which are all-monocrystal technology and the seventh inner conductor a silver-gold core said to add low ground impedance for cleaning up ground-loop noise. Far more flexible than the Siltech, the Ultimate Dream starts at a one-meter length costing €9500, with the 1.5-meter length costing €11,900.

The Crystal Cable box could double as a very attractive handbag.
